

Fertigungs GmbH & Co. KG

## Warranty

1. Zambelli Fertigungs GmbH & Co.KG grants a warranty for rainwater drainage system composed by products delivered by Zambelli to the customer TOKADO.
2. The warranty starts with the day of dispatch of the articles from Zambelli to Tokado.
3. Warranty specification for Zambelli rainwater system made of **galvanized and coated steel**:
  - The contract products have to be used in Ukraine under average environmental conditions (corrosion category C2 according to EN ISO 12944-2), not in maritime regions (= within a radius of 20km air-line distance)
  - Color changes which substantially affect the overall impression of the perspective area on a basis of objective norms. Color changes caused by irregular insolation or other ambient or environmental conditions, also a defective fit of the contract product with an outside supplied part (e.g. gutter connector or stop end and external gutter) are excluded from the warranty.
  - The period of warranty is 10 years.
4. Warranty specification for Zambelli rainwater system **made of Copper**:
  - Color changes are a consequence of natural influences and therefore are excluded from the warranty.
  - The period of warranty is 25 years.
5. The warranty does not include damages and consequences caused by
  - defective laying and installation workings

For a professional laying and appropriate installing there apply relevant instructions, e.g. instructions for the accomplishment of metal roofs, exterior wall cladding and plumber workings (technical rules of plumber craft) and roofer instructions. If the products are provided with a protection film, it has to be removed before installation. The system has to be cleaned once a year. Connections whose waterproofing is based on the use of rubber seal (stop end, gutter connector) have to be checked yearly and readjusted if necessary.

- planning error, defective construction of the roof truss or covering.
- chemical, electrochemical, mechanical or physical effects.
- defective or careless treatment during transport or storing, which has to be in a dry and roofed place.

Legal warranty instructions apply for not listed points.
